TOP SECRET

Deputy Director for Intelligence

- NESA prepared two typescripts in response to questions posed by Vice President Bush. One was on UNIFIL-PLO relations; the other dealt with why Israel exceeded the 40 kilometer limit.
- OGI and DDO personnel briefed Judge Webster, Director, FBI, and Mr. Mullen, Acting Administrator, DEA, on CIA's role in the collection and analysis of narcotics intelligence.
- SOVA and DIA signed a memorandum of understanding on the maintenance of a national intelligence data base on Soviet ground forces.
- NESA will be drafting a typescript on longer-term regional implications of Israel's invasion of Lebanon.
- OSWR will brief the SSCI on Soviet CW use, evidence of violations of BW/CW treaties and conventions, and the Sverdlovsk BW accident. The Editor of the Wall Street Journal will also be briefed on CW.

National Intelligence Council

- NIO/NESA is completing an inter-agency assessment on likely developments from another U.S. military exercise in the Gulf of Sidra.
- C/NIC and NIO/SP met with representatives of the Defense Nuclear Agency to discuss the estimated hardness of Soviet missile silos. (The main uncertainty is the degree of shock isolation within the silos.)

Personnel

General Counsel

- The Human Subject Research Panel has finished reviewing three new projects and will send its recommendations to the DCI. The Panel is responsible for ensuring that counterintelligence research is conducted under the Health and Human Services guidelines of E.O. 12333.
- Procedures implementing E.O. 12333 governing CIA activities outside the U.S. and the conduct of counterintelligence outside the U.S. by the FBI become effective on 29 June.
- The Senate is expected to take up S. 2487, the FY-83 Intelligence Authorization Bill, on 30 June. It is anticipated that a floor amendment on the Supplemental Authorization for FY-82 will be offered. It will contain provisions to remedy our personnel ceiling problem.

Inspector General

the conflict-of-interest area, some improvement in procedures are in order. OGC and IG are working on this problem.

Comptroller

—The CIA FY-84 budget forecast was transmitted to the IC Staff. It provides a brief overview of developments to date in the 1984 program.

Office of External Affairs

—Press reaction to the President's visit was widespread enough to achieve our goal of sending a message to the world regarding the Identities legislation.

Upcoming Calendar

2 July - Breakfast with Secretary of Defense (DDCI)
6 July - NFIB Meeting (DCI, DDCI)

TOP SECRET

Intelligence Community Staff Weekly Report

21 - 25 June 1982

Completed

- Congress - In response to a letter from Senator Stevens to the DCI regarding improper distribution of classified documents on Capitol Hill, prepared DCI response and DCI instructions to NFIP Program Managers to prevent recurrence.
- Counterintelligence - Briefed the PFIAB Counterintelligence Panel on 23 June on the organization and functions of the Community Counterintelligence Staff plus current issues confronting the Community.
- Capitol Hill Security - Provided results of Security Committee review of Capitol Hill security which reveals a high potential for technical penetration of intelligence hearing rooms. Report to DCI includes memoranda for his signature to appropriate congressional committees and recommends that the Capitol Hill Police assume technical security responsibility with training provided by the Intelligence Community.

Ongoing

- NSSD-2 - Counterintelligence - Work progressing on counterintelligence capabilities study. Tentative meetings of NFIC and SIG(I) have been scheduled for 6 and 7 July respectively.
- Soviet Microwave Collection - U.S. - In response to DDCI/DCI query, ICS compiling Community assessment of Soviet microwave collection capability in the U.S. Report to be available by 30 June 1982.
- PFIAB - The final installment of the response to Leo Cherne on the status of actions taken by the Intelligence Community in response to former PFIAB recommendations will be ready for DCI signature week of 28 June.
- FY 84 NFIP Budget - Budget forecasts for FY 84 have been received from each of the NFIP Program Managers. Overall, the quality of these inputs is very good in spite of the change to the new Capabilities Programming and Budgeting System. All NFIP Program Managers' submissions exceed the level of DCI high guidance. The IC Staff will continue working with the Program Managers over the next several months in preparation for developing the FY 84 NFIP budget.
